1. Company Profile

Uranusys LLC is a cybersecurity and cyberlearning company dedicated to protecting organizations against digital threats and supporting them in their digital transformation. **Our mission:** to strengthen security, ensure compliance, and empower businesses to thrive with peace of mind.

As an **official CodeRed Affiliate Partner with EC-Council**, we provide exclusive access to the world's largest online library of cybersecurity courses. These programs include hands-on labs, Red Team training, and regularly updated content delivered by recognized experts. This enables both professionals and teams to continuously enhance their skills in a rapidly evolving technology environment.

➔ Explore our trainings: <https://bit.ly/Codered-Training>

Whether you are securing your cloud infrastructure, developing your artificial intelligence strategy, or building a resilient cybersecurity program, **Uranusys is your trusted partner.**

2. Our Services

- ◆ **Zero Trust Strategy** – Reduce risks by verifying every access.
- ◆ **Threat Intelligence** – Monitor and anticipate global threats.
- ◆ **Governance and Responsible AI Adoption** – Manage risks and ensure compliance.
- ◆ **Vulnerability Assessments & Penetration Testing** – Identify and remediate weaknesses.
- ◆ **Cloud & Multicloud Security** – Protect your AWS, Azure, and GCP environments.
- ◆ **Strategic Cybersecurity Training** – Build the skills of your teams.

3. Our Services - Continued

Governance and Responsible AI Adoption

We design and deploy Zero Trust architectures based on the principle of ***“never trust, always verify.”*** This includes multi-factor authentication, network segmentation, and continuous verification of identities and devices. This approach reduces the attack surface and strengthens organizational resilience against modern threats, including insider threats and advanced persistent threats (APTs).

We also provide Generative AI governance to ensure its responsible, ethical, and compliant adoption. This service enables organizations to manage AI-specific risks while reinforcing their overall cyber resilience.

Our approach integrates ethical principles from the design phase to prevent bias, ensure system transparency, and guarantee controlled, sustainable use in accordance with current regulations. This is supported by tailored governance that frames AI usage, assesses risks, and ensures continuous oversight.

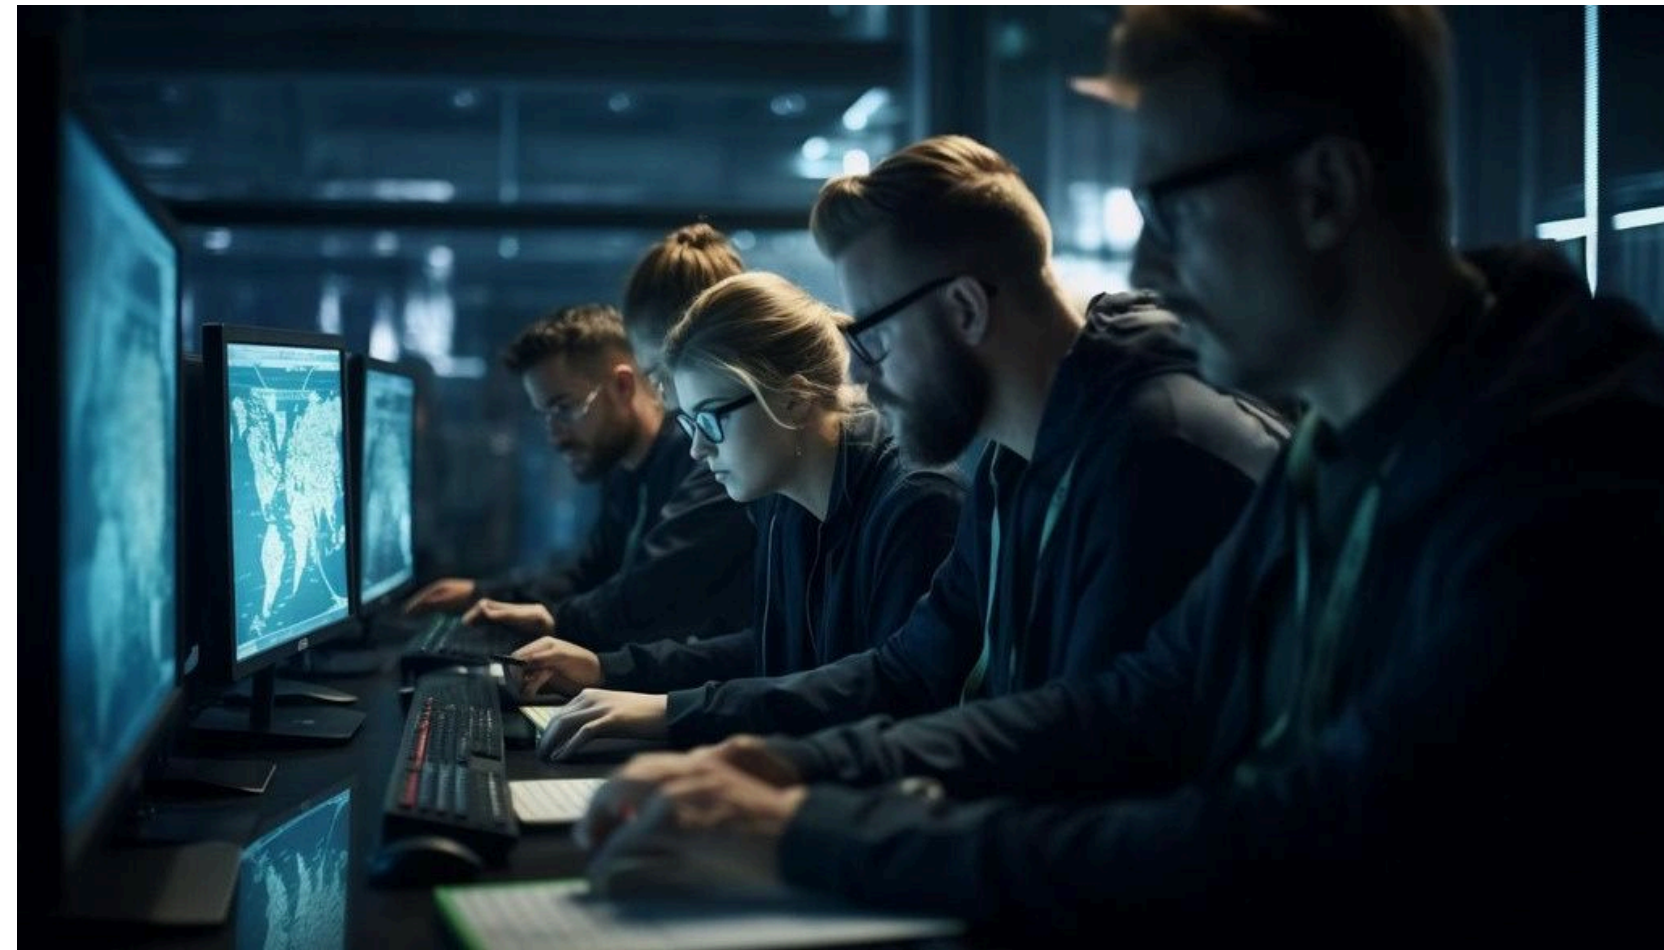

3. Our Team

Our team is composed of experts in cybersecurity, cloud, IT governance, project management, and the responsible adoption of Generative AI.

We combine technical expertise with a human-centered approach, including listening, collaboration, and innovation, to deliver sustainable results aligned with the priorities and business challenges of our current and future clients.

4. Why Choose Us?

Your trusted partner in building resilient cybersecurity

At Uranusys, we combine expertise, education, and client commitment to strengthen your cybersecurity for the long term.

- Expertise & Experience – A certified team (CISA, CEH, CISSP, PMP, SPOC, CCZT, CCT, and Google Cloud Generative AI) with mastery of international cybersecurity standards (NIST, ISO, CIS) and leading cloud platforms (AWS, Azure, GCP).
- Training & Enablement – We build your team’s capabilities to ensure lasting, informed security decisions.
- Flexibility & Agility – Fast, tailored solutions aligned with your business objectives.
- Client Support & Success – Clear metrics, continuous adjustments, and measurable satisfaction.

Our Team’s Certifications & Accreditations

5. Partnerships et collaboration

Uranusys relies on a strong ecosystem of technology partners to deliver cutting-edge cybersecurity and training solutions. As an **official affiliate of EC-Council CodeRed**, we provide strategic access to a global training platform, complemented by tailored guidance.

We collaborate with industry leaders such as Microsoft, Google Cloud, AWS, and Aviatrix to integrate best practices, ensure cloud-native compatibility, and secure hybrid and multicloud environments. These alliances enable us to support you with agility and relevance in a constantly evolving digital landscape.

6. Marketing Strategy

Our strategy is based on:

- Digital visibility (website, professional social networks, targeted campaigns).
- High-value content creation (guides, webinars, online training).
- Building trusted relationships with clients and strategic partners.
